

kgd's mandate is to bring design expertise to various verticals in the areas of transportation, healthcare, education, commercial, residential and industrial architecture.

Innovation at kgd is the result of using advanced softwares & construction technology with time tested industry know how.

A humanistic understanding of the function of architecture, demands that every project has a cultural and social underpinning as the basis for design.

architecture + green + innovation

OUR VISION

KGD is committed to bringing design excellence to the AEC (Architectural Engineering Consultants) industry across different verticals such as Townships, Healthcare, Hospitality, Transportation, Education,

Commercial and Interior's segments. Each of our projects is **carefully tailor made to deliver unique, innovative and sustainable solutions** that reflect the needs of our clients while still enabling responsible stewardship towards the public at large. Our design solutions are sensitive to context and culture, and seek to foster both the private and public space use in dialog with each other.

Our commitment to innovation demands that we stay ahead of the technology curve in order to deliver **value added design solutions within a budget** and within a time frame. Our dedicated **BIM** (Building Information Modeling) studio uses sophisticated parametric modeling software for all services and architecture to help bring a fully coordinated set of drawings to site before construction begins. This enables us to save our client 5%-15% of construction cost. An extensive use of **3-D Visualization** techniques keeps the client well abreast of the project that is about to be built.

Our commitment to **design excellence** has made it imperative for the company to deliver turnkey solutions - integrating design with project process and delivery. To this end KGD's presence pan-India has grown to include various satellite offices and site offices at Bangalore, Delhi, Hyderabad, Chennai and Bhubaneswar.

LEADERSHIP

Njeeb Khan
AIA, RIBA
Founder & Managing Director

Njeeb founded KGD in 2003 along with Ned Kirschbaum and Jim Bradburn of Fentress Architects. Subsequently he started KGD Architecture and is instrumental in KGD's thought leadership. His prior exposure to large scale projects globally brings an ambitious vision for KGD as a player in the AEC industry.

Njeeb holds a Master's degree in Architecture from the University of Colorado, and is certified by the Royal Institute of British Architects and the American Institute of Architects.

Anjali Ganapathy
M. Arch
Director Design

Anjali's role as a member of KGD's board of directors at KGD has been to drive company's growth through design initiatives and processes. Her prior experience as a designer at some top design firms includes Los Angeles and Seattle. Her pedagogical exposure in teaching design studios at the University of Minnesota, brings in a strong mentorship to the company.

Anjali holds a Master degree in Architecture from Virginia Polytechnic Institute, USA.

Ajay Gupta
AIA
Executive Director

Ajay's leadership as a member of KGD's board of directors steers KGD's technical and business process. His professional experience prior to his directorship at KGD spans twelve years in India as well as the USA.

Ajay completed his Master of Architecture from Illinois Institute of Technology, USA.

LEADERSHIP

Steven Pliam
M.S., M. Arch
Director

Steven's role at KGD has been to push innovation forward in the areas of computing and visualization. He brings over ten years of experience as a key person at Frank Gehry & Associates.

Steven has teaching experience as a technical educator, instructor, and lecturer for both college students and the AEC industry.

He has completed his Master of Architecture from Virginia Polytechnic Institute. In addition, Steven has a second masters degree from the Media Lab at MIT.

Shivalika Midha
B. Arch
Director

Shivalika's contribution towards KGD, has been in various aspects of the firm's impressive growth.

Her role as a member of KGD's board of directors at KGD is to spearhead the interiors vertical and further set the bar for the company's escalation.

Prior to KGD Shivalika has worked with various architectural firms in Newyork city, Washington & Miami.

C.J. Kosalraman
AIA, LEED AP, IIA
Director

Kosal's role as a director at kgd involves heading the hospitality vertical. He has gained extensive experience working with the leading international hotel operators worldwide for the past 16 years.

Prior to joining KGD, Kosal served as a Principal, Senior Vice President and Director of Operations India for HKS Inc., USA.

He has completed his Master of Architecture from University of Oklahoma, USA.

STRENGTH

Building Information Modeling

KGD uses state of the art BIM technology extensively for coordination of architecture and structural services for more complex projects in healthcare, hospitality & transportation.

KGD BIM Studio's system has resulted in savings of 3-5% of the project cost and compress the project schedule by 10%.

KGD BIM Studio uses cutting edge software & technology that rehearses the entire construction before even a single task is started at the site

STRENGTH

Visualization + Animation

Architectural visualization is an important tool in communicating KGD's design ideas. While photo - realistic renderings are used for marketing our clients, renderings, animations and information graphics help clarify and crystallize design solutions. Our high - end visualization team is often engaged with overseas projects from the Middle East to North America.

STRENGTH

green + international design

Our design approach integrates the best international standards with local jurisdictional and prevalent construction practices. Low - tech and high-end 'green' design methodologies influence the base conception of the projects from the get-go through delivery on site.
